

# SHUN HANG RAPHAEL CHUNG

(852)6286 7994 | [raphael15368@gmail.com](mailto:raphael15368@gmail.com) | [LinkedIn](#) | [Github](#) | [Website](#)

## EDUCATION

**Rensselaer Polytechnic Institute (RPI)**, Troy | NY

May 2024

*B.S. in Information Technology and Web Science – Computer Science Track*

## RELEVANT COURSEWORK

- **Cybersecurity:** Modern Binary Exploitation, Cloud Security, Cryptography and Network Security, Information System Security
- **IT:** Managing IT Resources, Web Science Systems Development, Database Systems, Operating Systems

## SKILLS

- **Web Development:** React, Node, JavaScript, HTML, CSS, Bootstrap, PHP
- **Frameworks:** Express, REST API, MongoDB
- **Programming:** Python, C, C++, Java, SQL, MySQL
- **Networking:** Postman, Tor, Wireshark, Powershell
- **Tools:** Git, GitHub, Git Bash, VS Code, Microsoft Office

## WORK EXPERIENCE

**TESS Asia Limited**, Hong Kong

*Associate, Information Technology*, Part-time Remote from Troy, NY

Jun 2023-Dec 2023

*Intern, Information Technology*, Hong Kong

- Identified and mitigated 10+ critical vulnerabilities in current application and software libraries through advanced scanning tools, recommending and implementing safer versions to enhance security.
- Revitalized the ISO27001 qualification initiative at TessAsia Limited by establishing a comprehensive framework to evaluate and rectify gaps in policies, licenses, and processes, ensuring compliance with ISO27001 and legal standards.
- Presented detailed findings to senior management and successfully implemented new policies and business practices aligned with ISO27001 standards, significantly enhancing data protection, access controls, and risk management.

## PROJECTS

**Aircraft Weight & Balance Evaluation Tool, RPI**

Jan-May 2024

- Developed a proof-of-concept (POC) web application to enhance ramp agents' cargo loading efficiency using Python ML and airline image data.
- Created the frontend with HTML, CSS, and JavaScript, and assisted in backend development for fire suppression line scanning.

**Ken Thompson Hack Recreation, RPI**

Jan-May 2023

- Collaborated on recreating an injection of a backdoor into Tiny C compiler's login files, ensuring the hack left no trace and could propagate to future versions.
- Deepened our understanding of code-based attacks and defenses by developing attack methods against a code compiler.

**Algorithm Recreation Project, RPI**

May-July 2022

- Recreated three algorithms—SRT (Shortest Remaining Time), SJF (Shortest Job First), and FCFS (First Come First Serve)—in Python with 2 team members to better understand their intricacies via reverse-engineering.

**Data Analysis, RPI**

Jan-May 2021

- Analyzed Twitter conversations about Myanmar's military actions, using a bot to collect and summarize data on social media's influence on emotional responses.
- Set up a bot to collect tweets using a specific hashtag and analyze data into summary points regarding behavior, trend, and influence for the main research paper.

## ACHIEVEMENT

**CompTIA Security+ (SY0-701)**

August 2024

- Certification Number: FYK31B3ZF211Q434

**National Cyber League (NCL) Fall 2023 Season**

Sept-Dec 2023

- NCL is a cybersecurity competition that challenges participants with real-world problems in cryptography, network traffic analysis, and web application security.
- Individual Game: (Standard Bracket) National Rank: 1253/7934 (Top 15.8%)
- Team Game: (Standard Bracket) National Rank: 235/4692 (Top 5%)
